-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

This application contains claim 16 drawn to an invention nonelected without traverse in the reply filed on 09/01/06. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Response to Amendment***

The drawing objection has been obviated in view of the amendment filed 04/06/07.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9, 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Keith et al. (US5,702,439).

Keith et al. discloses a catheter assembly having a balloon at the distal end portion of the catheter. Keith et al. teaches a proximal tubular member 22 ( made up of tubular elements 64 and 66) which is disclosed as a hypotube made of stainless steel with a coating of polytetrafluoroethylene ( PTFE) . See column 6, lines 22-44. Keith et

Art Unit: 3763

al. shows a substantially distal outer tubular member 82 which is made preferably of high density polyethylene ( PE) and a substantially hollow inner tubular member 80. The three engagement regions can be seen in figure 2 –3,5-6, specifically in figure 5.

### ***Allowable Subject Matter***

Claims 10-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 04/06/07 have been fully considered but they are not persuasive. Applicant has not convincingly pointed out the errors of the rejection. Applicant has only amended the claims and purportedly assert that Keith does not show the amended limitation. This is not convincing. The Examiner is referring Applicant to figures 2-3 and 5-6 of Keith et al. Keith et al. specifically discloses that the proximal tubular element is coated with PTFE. As such there are 3 engagement regions between the proximal tubular and the inner tubular member and the outer tubular member. See specifically figure 5.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3763

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
